Onze referentie Measures related to the corona virus

Dear relation,

The current developments regarding the corona virus goes not unnoticed. The Dingemans Group has therefore also taken far-reaching measures to ensure the continuity of our production and deliveries.

These measures consist of starting in shifts, involving not only the production, but also the sales-, work-preparation- and logistics departments. In fact, the company is separated into two teams for the required period. Contact between the two teams will be avoided.

In addition, we will follow up and even intensify all hygienic and practical measures as advised by the Dutch government (RIVM).

In this way, we are confident that the situation will remain manageable, so that we can deliver your valued purchase orders, as you are used from us!

Yours sincerely,

Dingemans Elementenbouw BV
Metal Rolling Products BV

Joost Dingemans, *director*
